

## SGP 9609 STOP-GO SIGN

### TECHNICAL SPECIFICATIONS

Operating Voltage	3.0-4.2VDC
Nominal Voltage	3.7VDC
Current Consumption	
Dome Color	White
LED Color	
Lens Color	
Flash Frequency	
Number of Flash Patterns	
Synchronization	
Special Features	Powerful LED lighting, ABS body, Customizable message, Rechargeable
Interface	On/Off Button
Cable Length	
Mounting Type	
Length	445mm
Width	195mm
Height	50mm
Weight	Empty: 550gr / With battery: 620gr
Protection Rating	IP65
Approvals / Certifications	
LED Lifetime	50,000 hours
Operating Temperature	-40°C ~ +85°C
Warranty Period	2 Years
Applications	Suitable for warning, alerting, directing, and marking purposes.

### ADVANTAGES

- Operates with a rechargeable Li-ion battery
- Illumination with high-power LEDs on both surfaces.
- Round reflective tape with high reflectivity (Green on one side, Red on the other) including text messages.
- Impact-resistant ABS plastic body.
- Long and uninterrupted operating time.
- Easy battery replacement capability.
- Easy carrying with wrist strap.
- Independent control of LEDs on both surfaces.
- Colored polycarbonate lenses providing light color matching the reflective surface.
- Ability to print customizable messages on the reflective tape on both sides of the sign.
- Suitable for outdoor environmental conditions.
- Battery charging via 12VDC from vehicle cigarette lighter or 220VAC charger (for rechargeable models).
